Wheat Has a Weak Opening on Easy Cables.

CORN SHOWS LATE FIRMNESS.

A Strong Feeling in Provisions With Prices at Times Irregular-Nothing New in Cattle-Hogs Active.

CHICAGO PRODUCE MARKETS.

CHICAGO, August 27 .- [Special Telegram to THE BEE, |-The wheat market had a weak opening. In "offices" yesterday afternoon December was bid up to 78%c, but the opening this morning was weak on easy caples. The European markets did not respond to the bulge on this side, though later Liverpool cables quoted a small improvement in prices, due to the unsettled condition of the weather in the United Kingdom. The markets over there are, up to the present, not disturbed over the world's crop deficiency. The importing countries of Europe have big crops, and the feeling is easy for that reason. Whatever may occur later on there is no immediate danger of short supplies. The home situation presents bullish features, which are by many considered of greater importance than any figures that may emanate officially or in any other way from any Austrian seed congress. The big field movement of winter wheat is on the wane and stocks at western points of accumulation do not increase as rapidly as could be wished. Indeed, at many principal points stocks are actually decreasing. Last week's supplies of contract wheat in this city alone were reduced more than 800,000 pushels. The farmers continue to pull back, and even in the spring wheat country they are not rushing forward their grain with the eagerness that was calculated upon. Trading began on a basis of 78c for December, 77%c for September and 82c for May. December, in which the most business is done, settled back to 7736c and acted very weak. It recovered its tone, however on increased general buying, and the market slowly worked up to 7816c. That looked like the top for awhile, but the price, after a little reaction, started up again, reaching 78%c, and then with a whoop crossing 79c and going up to 7916c. The top was a full cent above early anticipations. Opinion strengthened that the preliminary estimates would turn out approximately correct, and there was no disposition to regard them in a friendly way. Then there was a free covering of shorts for local and New York account and rumors of a heavy pur chase in New York for September shipment. One report which had believers, though it could not be definitely authenticated, was that a single order for 1,000,000 bushels had been worked there. To this was attributed a goodly proportion of the later strength in the market. The closthe later strength in the market. The clos-ing of December was 79c, a net gain of 34c on the day. September opened at 77%c, ranged at 76%(@78c, and closed at 77%c, August opened at 78c, ranged at 77%gc, and closed at 78%c. There was considerable changing over of August wheat into December during the session. A good business in cash wheat was reported, but it was trans-acted quietly and to some extent under

The corn market, after a weak opening. became firm, in sympathy with wheat. The conditions were all favorable to the bears, but the shorts were nervous and sent prices up. September opened at 35%c, declined to 35%@35%c, then advanced %c, and closed at 33%@24c, which is %c improvement on yesterday's closing flavors.

The oats market was narrow, but prices averaged a shade firmer, with good business noted in May around 23c. The posted receipts were less than anticipated and a moderate inquiry existed, while there was no pressure to sell. For August 20@2016c was paid, with next month a shade discount. There was some demand for No. 2 white, which is selling at 22½c, and September at 22c. No. 2 cats to go to store sold at 20c, or 36@14c improvement.
In provisions the feeling was quite strong.

In provisions the reening was quite strong.

Prices were at times somewhat irregular, yet in general trade the underlying tone was far from discouraging for holders. Trading was also fair, though a good share of the future business transacted was of a scalping character. September, October and January were again the favorite months. Hutchinson was the largest buyer of pork for near deliv-ery, and in speculative lines lard appeared to command the most generous support. Cash buyers made very good purchases. As a rule the closing prices all around showed no important change from yesterday's final quotations. September pork rested at a decline of 214c, while October and January pork was advanced 21/4c, and cash and future lard 21/4@5c. Short ribs closed unchanged to 5c

Cuicago, August 27 .- [Special Telegram to THE BEE. |- CATTLE. -There was nothing new worth noting. The run is light and 6,000 less than this time last week, yet there is no perceptible improvement on anything but prime export steers. Common to grassy stock is not wanted, is hard to sell and a vexation to all concerned. There were about 1,500 range steers on the market, mostly medium and common, and only one lot that attracted any attention. The Texans numbered about 4,000, and generally sold from weak to a shade lower. Native butchers stock was steady. There were but one or stock was steady. There were but one or two buyers. FINANCIAL

New York, August 27 .- | Special Telegram to THE BEE. J-STOCKS-The inflation and strength in stocks yesterday started more than the usual amount of gossip up town last night. The action was considered most healthful, as there were few evidences of manipulation. The doings of the day left the impression that 6 per cent money is likely not to stand any longer in the way of the natural advance in figures. Chicago parties are buyers of the stocks of the corn belt lines. The Villard people are credited with strength in the Northern Pacific. The bears were discouraged last night and say they can do little to oppose the upward movement until the trade gets fillied up with stocks. There was still further discourage ment in the bear ranks this morning when the market opened strong with first prices & to 16 higher than the closing figures last night. London was a buyer of a half dozen eading stocks, and grangers were in good demand. There was a well distributed business among the leading stocks, with Atchison, Northwestern, Northern Pacific preferred, St. Paul and New England leading followed by Cotton Oil. Several things favored the upward movement in stocks after 12 o'clock. Money dropped from 5 per cent to 4 per cent and the government bought liberally of bonds. The shorts saw the handwriting on the wall and made an effort to protect themselves by buying. The net gains were not as great as on Monday, but coming to the top of the former advance and closing at about top figures made a good record for the bulls. Chesapeake & Ohio

shares gained % on first preferred, 34 on mmon and I on second preferred. Northern Pacific preferred, Atchison and Northwestern each closed % higher, Missouri Pa-cific and Union Pacific each % higher, Rock Island 4 higher. Trusts and coal stocks closed small fractions better with Cotton Oil 14 up at 52%. The total sales were

OMAHA LIVE STOCK

Cattle.

Tuesday, August 27.

To-day's run of cattle was very light and consisted principally of commonish native and western cattle, desirable and fat beeves being extremely scarce. The dressed beef operators wanted a few good cattle and the feeling was stronger on such but there were not enough to make much of a test of the market. A bunch of 1452 pound beeves soid at \$4.15 and some 1298 pound beeves at \$4.00, but aside from that the sale of natives ranged from \$3.10 to \$3.65. Quite a string of cornfed westerns sold at \$3.50 and some range steers at \$2.35. The market on cow stuff did not present any essentially new stuff did not present any essentially new features. The supply was not large and values remained stationery in about yester day's notch. Native cows sold at \$1.55@2.22 and canners at \$1.00@1.55. There were good many stock cattle and feeders on sale, but quite a considerable proportion of them were not especially desirable. There were quite a good many buyers in the yards and considerable inquiry for that class of cattle still the trading was inclined to be slow. A few native feeders went at \$2.40@2.90, and quite a good many Colorado feeders at \$2.40 @2.65. Taking the market as a whole it was not much different from yesterday excepting the brightening up of the trade on the best grades of beause. grades of beeves.

It would be impossible to go into detail regarding to-day's trade in hogs without repeating much that has been said of the market on a good many days of late. The shippers opened the market by paying prices that were about 5c higher for the heavy and

mixed hogs, that is \$1.75@3.80 for the bulk. The light hogs did not sell materially different from yesterday, but there was more sorting and consequently more sales at \$3.90. The buyers for the fresh meat trade also bought a few loads at the same prices. The heaviest packers kept in the shade and did not strange to the same buyers for the same prices. heaviest packers kept in the shade and did not attempt to buy anything. If they made any bids they were so far below the shippers that there was no danger of their getting the hogs. After the shipping orders were filled the packers had it all their own way and their way was \$3.65@3.70 for the full loads and \$3.50@3.60 for the pieces, or the heavy ends of sorts. The trade was prolonged through the whole day, salesman being slow to sell hogs at \$3.70 that were fully as good as the shippers paid \$3.80 for. It would be safe to call the market closing 10c lower than the opening, or in other words, the packers' market 10c lower than the shippers' market.

Fairmount with hogs. D. O. Lawrence came down from Sioux City with two cars of cattle. A. M. Newburry of Panama, Ia., was in with a lot of choice heavy hogs. Thomas Powers was in from Sutton with

two cars of cattle and one of hogs. Niobrara was represented by B. Bade, who Secretary A. L. Lott has issued notice of the meeting of the Live Stock exchange, Monday, September 2, at 2 o'clock. A di-rector will be elected to fill the vacancy caused by the resignation of J. M. Doud.

The real explanation for the present condition of the hog market is: The packers are not willing to pay the present prices for hogs, and are determined to force the market lower, put at the same time the shippers are keeping prices up. Hence, whenever there are more hogs than the shippers can use, or hors that they do not happen to want, the packers sit down on them. The ship-pers do not always buy the best hogs, so that sometimes as good hogs as there are in the yards have to be sold at a mean price.

SOUTH OMAHA NEWS. Meet and Arrange.

On Thursday of merchants' week, September 5, the visitors to Omaha will be brought to visit the Magic City. Let us receive them in a manner as flattering to them as it will be creditable to us. To do this we need most careful preparation and untimited funds. THE BEE suggests that Mayor Sloane call a public meeting to make suitable preparations for the reception and enter tainment of visitors on that day. For the tainment of visitors on that day. For the good of the town too much cannot be done. Almost every visitor here on that day is a person directly interested in and shipping his product to this market and contributing to our stability, business and prosperity. Every dollar expehded on this occasion will be planted in fruitful soil. Let us meet soon, so that time may be had for ample and suitable preparation. Let us receive and entertain the visitors so that every one will say on departing, "Truly, South Omaha is the Magic City."

Proceedings of the City Council. The committee reported that the contract to pave N street could not be legally changed and that the property-holders were satisfied with the present contract. The committee on gas and public lights reported that more lights cannot be put np, as the levy of \$2,496 is now all appropriated. The health comis now all appropriated.
